

# USED OIL RECYCLING

Did you know that used motor oil never wears out? It just gets dirty and can be recycled, cleaned, and used again. Recycling used motor oil conserves a natural resource (oil) and is good for the environment too!

## Why should I recycle used oil?

Motor oil poured onto the ground or into storm drains, or tossed into trash cans (even in a sealed container) can contaminate the soil, groundwater, streams and rivers (and it's illegal). Used oil from one oil change can contaminate 1 million gallons of fresh water – a years supply for 50 people! When you take your used oil to a certified center for recycling, you are protecting the environment and conserving a valuable resource.

## How can I recycle used motor oil?

Drain your vehicle used oil into a clean, reusable, sealable plastic container. Clean up any spills with cat litter or saw dust – not water. Never mix anything - water, dirt, gasoline, antifreeze – with oil.

Take up to 5 gallons of used oil and oil filters to one of the recycling locations listed. Take oiled sawdust or cat litter to an authorized household hazardous waste collection facility.

## Used Oil Recycling Drop Off Locations

Corcoran Corporation Yard  
549 North Street, Corcoran  
559-992-2151

Hanford City Corporation Yard  
900 South 10<sup>th</sup> Avenue, Hanford  
559-585-2557

Kings Waste & Recycling Authority  
7803 Hanford-Armona Rd., Hanford  
559-583-8829

Kettleman City Corporation Yard  
110 General Petroleum Ave.  
Kettleman City, 559-386-5866

Lemoore Corporation Yard  
711 Cinnamon Drive., Lemoore  
559-925-2806
